

MISSION: Add value to education communities by offering an online workbench generating fresh streams of content, with companion materials to facilitate program management.

OBJECTIVES:

- Offer a content-rich, easy-to-use program, operating seamlessly between classroom and home, available 24x7, with no download login or password required.
- Be helpful to students with examples for study and tools for practice and assessing progress.
- Be useful to instructors by putting years of streamlined curriculum at your fingertips.
- Offer asynchronous assessments using scores and a control line for accountability.
- To offer a curriculum using Student Activity Logs to guide and record activity and progress.
- To have short helpful videos, detailing operations and program management.

FEATURES AND BENEFITS:

- Getting Started Videos in How to Use this Program section of the homepage are 6 minutes total. If you like what you see there are section overview and curriculum videos that may be viewed in any order. The total time to watch all videos is about 1 hour total.
- We fit in well with and reenforce existing curriculums from 1st grade through HS. Teachers may use any of our examples, tools or activities independently to supplement existing lessons.
- The online workbench and printed activity logs work together so teachers may better guide, track, assess, student activity/progress, on different assignments, in the same classroom.
- Students use tools they already have to show instructors their results or upload screen images.
- ABC123MATH is free for personal use to anyone who wants to practice, study and learn math.
- If you are a Parent, Teacher or Administrator we offer a risk-free trial and volume discounts on licenses. There is no difference between a licensed and trial version and no specific length to the trial. If you choose to use ABC123MATH please see Terms and Conditions in About Us.

Thank you for your time and best wishes your education journeys.

Sincerely,

Dominick Guida, Owner and Developer
