

**Student License:** This is a Lifetime License for \$99! A Student License means you may use the program anytime with any instructor, school or educator.

**Family License:** This is a Lifetime License, only 1 License may be purchased for \$199! A Family License means you may use the program with any instructor, school or educator.

**Instructor License:** We offer an (Annual \$125) or (Lifetime \$325 License) Options. An Instructor License enables you to access our online workbench tools and examples in your classroom you may also print our activity sheets for each student. However, if you print our curricula guides and guide students through our program please purchase a student license for those students as well.

**Community License:** This is our best offer !! Here's how it works:

A community such as a school or group of schools may license their community at a reduced rate, please see the [Website for Exact Rates](#). But here is our Best Offer! If you license your Whole Community we realize some students may be in their last year and some are just starting, so we take 50% off our already reduced rate. A quick example if your education community has 10,000 students, your one time payment would be \$202,750 which licenses all your students teachers and families instantly. New students may be licensed on an annual basis.

**!! Sign up for 2025-2026 School Year and Receive 50% all Annual License Fees !!**

---

Our program is FREE for PERSONAL USE, so if you aspire to improve your math skills please use us. Otherwise we offer a FREE TRIAL so please explore the program and if you choose to use it with your students or in your classrooms please purchase a license.

Thank you very much!

Sincerely,

Dominick Guida - Owner / Developer
